WOOCOMMERCE VISUAL PRODUCT CONFIGURATOR CUSTOM TEXT ADDON

User Manual

Content

Overview

Visual Product Configurator Custom Text Addon allows the customer to add a custom text with a custom color and font to the preview area which will be sent with his order.

A. Requirements

1. WordPress (minimum version: 3.6)
2. Woocommerce (minimum version: 2.4)
3. Woocommerce Visual Product Configurator (minimum version: 2.3.8)

B. Installation process

The zip file downloaded from CodeCanyon contains:
- The Visual Product Configurator Custom Text Addon user manual (User Manual.pdf)
- The Visual Product Configurator Custom Text Addon Installable plugin zip file (Visual Product Configurator Custom Text Addon.zip)

1. First, extract the archive in a folder of your choice and let's start the installation.
2. Go to your WordPress Admin Panel and click on Plugins > Add New to access the plugins installation screen
3. Then click on the upload link to access the plugin upload page
4. Click on the Choose file button and select the plugin installable zip archive named "**visual-product- configurator-custom-text -addon.zip**" in the folder extracted in the first step.
5. Click on the "Install Now" button to run the installation.
6. Once the plugin is successfully installed, please click on the Activate Plugin link to activate the plugin.

In order to use, "Text field" feature, you have to do the following:
   a) Go to "**add fonts**" under the "product builder" menu in the Wordpress Admin Panel
   b) Add all the fonts of your choice
   c) Then go to "**add colors**" define all the colors of your choice
